🌐 Dhruv Solanki | Full Stack Developer

PROFESSIONAL SUMMARY

Full Stack Developer specializing in AI-integrated applications, MERN stack, and Flutter. Delivered 5+ end-to-end deployed products including an LLM-powered HR screening tool, a real-time restaurant platform with Stripe payments, and an AI wardrobe engine. Experienced in building production-grade systems with real-time capabilities (Socket.IO, WebRTC) and GenAI integrations (Gemini API).

EDUCATION

Master of Computer Applications (MCA) 2024 – Present

Veer Narmad South Gujarat University (VNSGU), Surat

Bachelor of Computer Applications (BCA) Completed: 2024

Vivekanand College for Advanced Computer & Information Science, Surat — VNSGU

TECHNICAL SKILLS

AI / GenAI: Gemini API (Google), AI Prompt Engineering, LLM-based Document Parsing, AI-driven UI

Languages: HTML5, CSS3, JavaScript, TypeScript, SQL, Dart

Front-End: React.js, Next.js, Tailwind CSS, Bootstrap, Flutter

Back-End: Node.js, Express.js, Socket.IO, RESTful API Design

Databases: MongoDB, MySQL, Supabase, MongoDB Atlas (Mongoose)

Tools & Platforms: Git & GitHub, VS Code, npm, Firebase, WebRTC, Render, Clerk, RevenueCat

Concepts: RESTful APIs, MVC Architecture, CRUD Operations, Authentication & Authorization (JWT, OAuth), Real-Time Systems, Responsive Design, Session Management

Soft Skills: Problem-Solving, Time Management, Team Collaboration, Communication

EXPERIENCE

Junior Developer — Anantkaal, Surat May 2026 – Present

Rebuilt Parth therapy centre management as Flutter mobile + Flutter Web admin panel with Supabase backend, GetX state management, and custom UI theming (parth.anantkaal.com)

Developed FTD Innovations drone & defense commercial site in Next.js 14 + TypeScript + Tailwind with GSAP scroll-jacked sequences, SVG motion paths, and coverflow product sliders (ftd-inovations.netlify.app)

Built MyPhotoEvent AI event photo discovery landing page with Next.js + GSAP + Lenis featuring cinematic scroll-triggered animation sequences (mypartyphotos.com)

Created multi-step CRM client intake form with platform-specific OAuth guidance, field validation, and progressive onboarding flows (clientreqform.netlify.app)

Software Developer Intern — DKinfoway, Surat Nov 2025 – May 2026 | 6 Months

Built B2B diamond filtering & showcase platform with REST APIs for PDF generation and WhatsApp Business API direct memo delivery to jewelry clients (kodllindiamonds.netlify.app)

Implemented JWT authentication, friend management system, and MongoDB-backed message persistence for a real-time MERN platform with Socket.IO chat and WebRTC video calling

PROJECTS

Wardrobe — AI Smart Clothing Suggestion App

Tech Stack: *Flutter · Gemini API · Supabase · Node.js*

Built an AI-powered Flutter app integrating Gemini API for context-aware outfit recommendations based on weather, calendar, and budget. Features include wardrobe catalogue, wear-frequency tracking, and multi-mode outfit generation. Deployed with Supabase backend and real-time weather API integration.

AI Resume Scanner — Candidate Screening Tool

Tech Stack: *React.js · Node.js · Gemini API · MongoDB*

Engineered an end-to-end AI recruitment platform using Gemini API for resume parsing and JD matching — scoring and ranking candidates automatically. Built recruiter dashboard with shortlist management and report export. Reduced manual screening effort by automating candidate evaluation pipeline.

QR-BASED Restaurant Menu & Billing System

Tech Stack: *Next.js · React · Node.js · MongoDB · Socket.IO · Stripe · Cloudinary · Tailwind CSS*

Developed a contactless QR-based ordering system with real-time order status (Socket.IO), Stripe payment integration, and a full admin panel. System supports live order dashboard, menu CRUD, table QR generation, and revenue analytics — production-ready SaaS architecture.

ADDITIONAL INFORMATION

Languages: English, Hindi, Gujarati

Hobbies: Gaming, Watching Anime, Listening to Music, Art-sketches
